

April 11, 2018

Sales Engineer

Involves application analysis and equipment sizing and quoting for industrial and commercial HVAC projects. Should be familiar with application engineering for a variety of supply air fans, heating and cooling coils, energy recovery cross flow air-to-air heat exchangers, custom filter sections, evaporative cooling sections, direct and indirect gas fired burners, variable frequency drives, mechanical belt drives, gas manifolds, etc.

Requires excellent verbal and written communication skills and the ability to work with our external sales force, including sales representatives, engineers, mechanical contractors, and owners.

Please send resume' to personnel@absolutaire.com.
